

Chapter 14 - Practice Set

- 1 Write a Java program to demonstrate syntax, logical & runtime errors.
- 2 Write a Java program that prints "HaHa" during Arithmetic exception and "HeHe" during an Illegal argument exception
- 3 Write a program that allows you to keep accessing an array until a valid index is given. If max retries exceed 5 print "Error".
- 4 Modify program in Q3 to throw a Custom Exception if max retries are reached.
- 5 Wrap the program in Q3 inside a method which throws your custom Exception.
